Education

Vellore Institute Of Technology, BTech in Computer Science (Data Science) – Vellore

July 2023 – present

- CGPA : 9.30 / 10.00

Achyuta Public School, CBSE, Highschool in Bio-Mat – Dindigul, TN, India

June 2017 – Apr 2023

- Grade: AISSCE: 89.6% , AISSE: 98%

Projects

Clean Backup

Jan 2025 – present

A pure-Python automation tool that organizes photos and videos by extracting creation-date metadata and sorting them into a Year/Month folder structure.

- Metadata-based organization for images and videos (including HEIC, JPEG) with smart fallback to filesystem timestamps when metadata is missing.
- Duplicate-safe file handling with detailed logging.

Experience

SAP Analytics Cloud, Intern, Blueprint Technologies Pvt Ltd – Bengaluru, KA, India

May 2025 – July 2025

- Worked in core analytics concepts including exploratory data analysis, data cleaning, and responsive dashboards in SAP Analytics Cloud advanced dimension-level calculations, enhancing user interactivity and analytical depth.
- Integrated live data from Google Drive and implemented time-based metrics, enabling real-time performance monitoring for trend analysis and resolved geo-mapping issues by debugging latitude-longitude ID conflicts.
- Worked on predictive modeling (linear regression, classification, time series)

AI-ML , Intern, Jol Energy – Vellore, TN, India

Aug 2025 – Nov 2025

- Developed a real-time facial expression analyzer in Python using OpenCV to capture and process live webcam video.
- Integrated a Hugging Face (PyTorch) model to perform face detection and emotion classification, achieving real-time inference.
- Engineered an interactive UI to dynamically overlay bounding boxes, emotion labels, and confidence scores, adding user controls for saving frames and toggling verbose logging

Awards

Winner - Roboverse Ideathon 2025

Jan 2025

IEEE Robotics and Automation Society, VIT, Vellore

- Designed an AI-driven surveillance system using YOLO (Ultralytics) for real-time anomaly detection in CCTV footage.
- Developed a working prototype with human movement tracking, anomaly detection, and automated logging.
- Showcased scalable crime prevention potential with automated monitoring, securityalerts, and behavioral analysis.

Skills

Programming: Python, Java, C, C + +, Bash, YAML, HTML, CSS, JavaScript

Operating System: Arch Linux, Windows

Software: SAP Analytics Cloud, Excel, Sheets

Language: English (Professional proficiency), Tamil (Native proficiency), Japanese & Hindi (Limited proficiency)

Courses & Certifications

AWS Certified Solutions Architect – Associate

Dec 2025 – Dec 2028

Microsoft Certified: Azure AI Engineer Associate - AI 102

Nov 2025 – Nov 2026
